Brennan learned about Conservation Biology at Acadia, where he worked with Tom Herman and Nova Scotia's Blanding's Turtles. He currently lives in Ontario and works as a teacher to inspire the next generation of stewards. **Megan** studied Wildlife Biology at Guelph, and songbirds at Dalhousie's School for Resource and Environmental Studies.

In 2007 and 2008, Species at Risk Stewardship Biologists for Kejimikujik National Park and National Historic Site, **Brennan Caverhill** and **Megan Crowley** teamed together to produce the first edition of this guide.

Megan Crowley revised and updated the second edition of this guide, including the addition of all species listed since 2008. She continues to work at Kejimikujik and is passionate about engaging people and communities in the recovery of species at risk.

Megan surrounded by Plymouth Gentian and Pink Coreopsis.

Collaboration with many groups and individuals was required to create this field guide. Thanks kindly to all the individuals and organizations on page 166 who contributed their time and expertise.

A special thanks to the talented Jim Todd for his precise and professional graphic design work. Thank you to Nancy Davy at CWS for her prompt assistance over the years. Thanks to everyone who provided support throughout this process, in particular Sherman Boates, Mark Elderkin, Duncan Smith, and the staff at MTRI. Thanks to Alain Belliveau for preparing the initial drafts for the Atlantic Sturgeon and Black Ash pages. Many thanks to Brad Toms, Jeffie McNeil, Amanda Lavers, Alain Belliveau, and Morgan Mills for reviewing text sections prior to printing. And thanks especially to Stephen Flemming, for being an empowering and supportive supervisor and for giving his staff the opportunity and freedom to run with an idea and make it happen. This one little guide has inspired many other projects and actions over the last eight years.

Funding for the first edition was provided by Parks Canada's Priority Investment Fund for Species at Risk Recovery. Funding for the second edition was provided by Parks Canada, NS Department of Natural Resources, and Environment Canada (through the Habitat Stewardship Program).

Thanks also to NS Department of Natural Resources, Louisiana Pacific, Northern Pulp, and NS Power for pre-ordering copies of the second edition to assist with printing costs.
